Test Case #0

Submitted Code

Language: DB2

 [Open in editor](#)

```
1
2 /*
3     Enter your query here and follow these instructions:
4     1. Please append a semicolon ";" at the end of the query and enter your query in a single line to avoid error.
5     2. The AS keyword causes errors, so follow this convention: "Select t.Field From table1 t" instead of "select t.Field
6     From table1 AS t"
7     3. Type your code immediately after comment. Don't leave any blank line.
